

The Arlington Chamber of Commerce urges your support for SB 1299, identical to the House-passed HB 1879, continuing for another year the sale of mixed beverages for takeaway service. Restaurants are now approaching a year of severely limited, if any, in-person service on account of the COVID-19 pandemic. Takeaway beverage service has cut into some of the losses sustained during this time. Continuing this service for another year will support restaurants as they work to return to full service. Moreover, customers have come to enjoy takeaway beverage service safely and our neighbors in the District of Columbia have made it permanent. As such, we believe that continuing this service will serve Virginia restaurants and patrons well and encourage support of this bill.
